

ABOUT CAMPUS ADVANTAGE

Campus Advantage® is an Austin-based real estate firm that offers student housing management, development, acquisition, and consulting services. The company has been creating successful communities since its founding in 2003 and are trusted partners and advisors to a wide range of customers that include institutional lenders, universities, and community colleges. Its proven expertise and time-tested approach creates better student living experiences, which in turn creates financial success. For additional information, please visit campusadv.com.

HISTORY

Campus Advantage was founded in 2003 by former Community Assistants in Austin, Texas. At its inception, the company operated 2,000 beds at four communities and has since grown to operating 34,047 at 65 communities in 24 states. In 2007, Campus Advantage created its consulting and development services for colleges, owners, and private investors interested in determining the feasibility of a student housing project, gauging how much supply a market can support, or who are simply in need of guidance and support for developing new projects.

Also in 2007, Campus Advantage created Catalyst, an integrated marketing communications agency dedicated to student housing. For more information about company history and milestones, visit campusadv.com/history.
